Address: No 1 Mohammed Abbass Abare street new Kado Abuja

SUMMARY

I am a full-stack PHP/Laravel developer with advanced abilities in **Data Analysis** and **Social Protection**. With people and organizations who have positive recommendations for me, I have developed a number of web pages. While working with the national social safety nets coordinating office, a World Bank initiative, I also manage the data of the poor and vulnerable Beneficiaries in Nigerian states. I have participated in numerous organizational training courses and have honed my trade over the years. I am a quick learner who is devoted and constantly seeking knowledge.
